

Go beyond basic fire extinguisher training

HELPS REINFORCE THE RESCUE, ALERT, CONFINE, EXTINGUISH METHOD TO BUILD ON-THE-SCENE FIRE RESPONSIVENESS.

R.A.C.E. STATION

The LION R.A.C.E. Station recreates the stressful environment of an actual emergency. Trainees see simulated flames and the strobe light flash, hear the horn and fire sounds, and see the training smoke. Upon discovery of a simulated fire, trainees can put R.A.C.E. (Rescue, Alert, Confine, Extinguish) to the test by alerting with the Emergency Phone and/or pull station before attempting to extinguish the fire.

PUT R.A.C.E. TO THE TEST.

When faced with a number of decisions to make before the fire grows out of control, R.A.C.E. training helps them respond quickly and accurately. Arm your community with the skills to tackle incipient stage fire emergencies, saving lives, property, and fire department resource.

A SEAMLESS TRAINING EXPERIENCE

The R.A.C.E. Station communicates wirelessly with the BullsEye™ Digital

Fire Extinguisher Training System for a seamless training experience. Customize training scenarios to each location that you train in and their specific response plan. The R.A.C.E. Station can also be used with other LION training tools or as a standalone unit.

TAKE YOUR TRAINING ANYWHERE.

The R.A.C.E. Station's hinge design makes it easy to pop together and start training. The R.A.C.E. Station is compact enough for one person to pack it in the car and go. Train when it's convenient for you. Train where emergencies may really occur – the break room, shop floor, or your local school.

AVAILABLE PRODUCTS:

- A. R.A.C.E. Station B. Electric Cut-Off Prop C. R.A.C.E. Station Case
- D. SG1000 (VICO) Smoke Generator

(Not Shown: NiMH Battery Base, Smoke Liquid 1 Liter, Smoke Liquid 5 Liter)

NOTE: Product availability and design may differ based on market location.

Specifications

PHYSICAL SPECIFICATIONS

- **Pole Dimensions:**
5" x 9" x 78"
(12.7 cm x 22.86 cm x 198.12 cm)
- **Pole Weight:** 15 lbs. (6.8 kg)
- **Base Dimensions:**
24" x 21" x 3.5"
(60.96 cm x 53.34 cm x 8.89 cm)
- **Base Weight:** 15 lbs. (6.8 kg)
- **Input Power:** 12VDC, 1.25A
- **Strobe Brightness:** 15/75cd
- **Horn Volume:** 89-96 dBA at 3 ft. (91.44 cm)
- **Residential Alarm Volume:**
83 dBA at 3ft. (91.44 cm)

FEATURES

- Emergency Phone Number customization included
- Emergency Phone Response Message customization included
- Link as many as 5 R.A.C.E. Stations

Interactive Emergency Phone

Strobe Light & Annunciator

Smoke Detector

Pull Station

ELECTRIC CUT-OFF TRAINING PROP

Use the Electric Cut-Off prop along with the BullsEye to teach trainees to recognize the characteristic sounds of an electrical fire and react appropriately. After pulling the cut-off, the electrical fire arcing sounds will cease, indicating that it is now safe to extinguish.
